The SEC approved the increase in capital and classification of shares of stock.

The Company became an Internet company in January 18, 2000 upon the stockholders' approval of a restructuring plan which involved changes in the Company's name, primary purpose, increase in capital stock, declassification of shares, increase in the number of directors, and adoption of new by-laws, among other matters. The change in the Company's corporate name to "PhilWeb.Com, Inc.", its primary purpose from a mining and oil exploration company to that of an Internet company, increase in the number of directors to 15, and adoption of new By-laws became effective upon their approval by the SEC on February 8, 2000. ### **1.1 PAGCOR e-Games cafés**

e-Games was licensed by the Philippine Amusement and Gaming Corporation (PAGCOR) in 2003 to launch e-Games Stations, which are Internet cafés exclusively dedicated to casino games. With technology provided by PhilWeb, patrons can choose from more than 300 casino games, including baccarat, blackjack, various slot machine games, video poker and sports betting. Most e-Games cafés operate on a 24/7 basis.

There were 288 operating e-Games cafés across the country, majority of which are owned and operated by independent operators. These e-Games Operators handle day-to-day operations and get a commission based on the casino winnings of the café.

On August 11, 2016, PAGCOR decided not to renew the Intellectual Property License and Management Agreement (IPLMA) with PhilWeb. Following the expiration of the said IPLMA with PAGCOR for the e-Games service, PhilWeb has been unable to provide services to the e-Games operators.

On August 14, 2017, PAGCOR published guidelines for the Accreditation of Electronic Gaming System Service Provider. PAGCOR issued its first Electronic Gaming System accreditation to PhilWeb on October 30, 2017. On December 1, 2017, the first 16 electronic gaming locations were allowed to operate under PhilWeb's Electronic Gaming System platform.

On February 20, 2018, PAGCOR then allowed the Company to offer its services to an additional 21 e-Games Stations. On March 7, 2018, PAGCOR issued a memorandum accepting and processing applications of new and existing operators to resume the use of the Company's Electronic Gaming System platform, thereby allowing the Company to fully resume its operations.

On March 23, 2021, the Company was granted approval by PAGCOR to operate its Remote Gaming Platform (RGP) to allow high-value customers to enjoy gaming products outside of e-Games venues.

#### ***Operator Partnerships***

As of the preparation of this report, there are 87 locations across the country that are operating under PhilWeb.

### *Content and Services*

PhilWeb's Electronic Gaming System platform resumed with the Magic Macau suite of casino games. These games include wide-area progressive slots, video poker, and electronic table games such as Blackjack and Baccarat. During the year, the Company as well implemented two more casino brands, Viva! Las Vegas and Monte Carlo containing various casino, slot, and fishing games from six content providers. This gives more variety and options for the customers of eGaming locations. All of these games are available and accessible to all eGaming locations and its Remote Gaming Platform extension.

Apart from these, PhilWeb also resumed support services being provided to Operators, such as Accounting and Reporting, jackpot fund management, remittance management, technical support, marketing and customer service.

### *Marketing*

At the resumption of its Electronic Gaming service, PhilWeb launched various marketing activities to promote the business from 2017 up to the present. Operating sites were not only provided with regulatory materials, branded content and promotional activities. PhilWeb strengthened its support to eGames operators through local marketing programs such as site activations, player events, staff incentive and seasonal promos.

PhilWeb leveraged its partnership with game providers by setting up the nationwide tour of Habanero Caravan and engaging customers through RTG Seeing Doubles. High-budget network campaigns like Super 6, Wheels & Thrills and The Great Bike Giveaway, each with over a million worth of prizes ranging from casino credits to luxury cars, were conducted to increase loyalty to the eGames brand.

PAGCOR-certified web-based gaming was introduced in the second quarter of 2021 through PhilWeb's remote gaming platform. Sign Up & Win, Race to P5M Bet and eGames After Dark were launched to provide entertainment and reward its exclusive members during the pandemic.

### **1.2 BigGame, Inc.**

BigGame ended 2022 with 32 operating locations across the country. This was achieved partly through the acquisition of electronic gaming sites in different parts of the country.

BigGame's network of cafés functions as the Company's "R&D laboratory" where new games, strategies and other innovative ideas are first tested. Results, whether positive or negative, are reported to e-Games operators during the quarterly General Assemblies. If a new game or idea delivers positive results and is approved unanimously by the operators, the BigGame café in question becomes the standard by which all other BigGame and e-Games cafés will follow. Because of this rigorous process, BigGame continues to bring in improved gaming configurations and upgrades for the Company's various services and amenities

### *Best Gaming Experience*

BigGame continues to provide the Best Gaming Experience to its customers. Continuous daily food service has become a mainstay at the BigGame locations since its introduction in 2016.

BigGame continues its site expansion, renovation and refurbishment activities in 2018. The year ahead will also see more innovations and improvements in player experience. Player acquisition efforts will also be a focus through activation activities in various entertainment establishments. BigGame remains committed to increasing customer service levels, as well as adding site amenities and creating an ambiance that extends the best gaming experience for our target market.

### **1.3 e-Bingo**

In an effort to expand and diversify operation, PhilWeb, thru Easy e-Bingo, Inc. (a wholly-owned subsidiary) acquired two electronic bingo sites located in the National Capital Region. This provides PhilWeb with valuable insights into another segment of the gaming industry. Easy e-Bingo, Inc. is currently operating six e-Bingo locations.

On March 8, 2021, PhilWeb Corporation acquired sixteen e bingo sites and two electronic bingo machine suppliers from the Palmary Group. Following this acquisition, PhilWeb now operates twenty-two electronic bingo sites. The acquisition of the two accredited electronic bingo machine supplier companies allows PhilWeb to expand its portfolio of gaming services into electronic bingo sites. At present, these two companies are accredited suppliers to seventy-five electronic bingo sites outlets across the country.

### **1.4 Corporate Services**

#### *Finance*

The PhilWeb Finance Department continued to provide its unwavering support to the growth of the business through the sound implementation of financial systems, processes and internal control policies that safeguard the Company assets and resources.

Finance developed the reporting process and reconciliations of progressive jackpot contributions and actual payouts for slot machine games. This paved the way for PAGCOR to approve the introduction of new games with large progressive payouts, such as Happy Golden Ox, Three Stooges and Rudolf's Revenge. The introduction and implementation of new games was successful not only in creating excitement for our players, but also in delivering additional revenue to all our stakeholders.

Another milestone was the implementation of our closed-loop e-wallet which we branded "e-SAFE". The keys to the implementation of e-SAFE were the internal controls and security measures that we established to ensure that the client's money is safe and secure. Coupled with the introduction of new gaming platforms such as MSW, the e-SAFE will now allow players to place bets to these games using the wallet balance. This will also allow players to receive

payouts through their wallets, which they can keep or withdraw any time they want. The Company is looking of re-launching this wallet in the near future.

Finance continues to ensure that all cash from the nationwide network of e-Games are collected on a timely and accurate manner. Through our company-proprietary POS system and 24/7 operation of our Cash Centers, we are able to monitor cash exposure and thereby enabling us to collect or replenish the cash needs of each site almost immediately. Our arrangements with banks, also allow us to replenish the operator and pay the player of the provincial sites on a real-time basis. The strict implementation of collection policies enables us to manage our cash with very minimal risk to the Company and to the operator.

Finance continuously provides financial reports, reconciliations in a timely manner to management and stakeholders to support key business decisions.

### *Legal*

The Legal Department ensures that the interests of the Company as well as its subsidiaries and affiliates are fully protected. Likewise, it makes certain that the Company observes all laws, rules and regulations relevant to the operation of its business and that it complies with all the reportorial requirements of various government offices and agencies such as, but not limited to, the Securities and Exchange Commission, the Philippine Stock Exchange, the Board of Investments and the Philippine Economic Zone Authority. In the same manner, the Legal Department manages and oversees the Company's dealings with concerned local government units with respect to the issuances of permits and licenses.

In all, the Legal Department serves as the legal adviser and consultant of the Company, ever vigilant and protective of the Company's rights and interests.

### *Customer Support*

To ensure continuity in providing 24 x 7 support to all e-Games members, operators and site staff during the pandemic, several improvements were implemented in the Customer Support department. The call center's telephony system was transitioned from a premise based to a telco grade hosted ACD, IVRS and telephony solution on a cloud-based infrastructure. The new system is now accessible through the internet which allowed all our customer support officers to access the platform and man the eGames hotline anytime, anywhere. Our customer service channels were also expanded and now includes - voice (hotline), email and chat support via SMS, Viber and Facebook. With these enhancements, we are able to handle over 100,000 transactions across all products and channels. Customer Support has also maintained its 92% average answer rate for inbound calls and 30-minute response rate for all its written correspondences via email, SMS and chat.

The group continued to provide outbound support for other departments as well: Marketing – for promo related activities; Information Technology – for maintenance advisories; and Finance – for cash collection and replenishment.
