

1.1 PAGCOR e-Games cafés

e-Games was licensed by the Philippine Amusement and Gaming Corporation (PAGCOR) in 2003 to launch e-Games Stations, which are Internet cafés exclusively dedicated to casino games. With technology provided by PhilWeb, patrons can choose from more than 300 casino games, including baccarat, blackjack, various slot machine games, video poker and sports betting. Most e-Games cafés operate on a 24/7 basis.

There were 288 operating e-Games cafés across the country, majority of which are owned and operated by independent operators. These e-Games Operators handle day-to-day operations and get a commission based on the casino winnings of the café.

On August 11, 2016, PAGCOR decided not to renew the Intellectual Property License and Management Agreement (IPLMA) with PhilWeb. Following the expiration of the said IPLMA with PAGCOR for the e-Games service, PhilWeb has been unable to provide services to the e-Games operators. During that time, PhilWeb continued to comply with PAGCOR instructions on the release of operator funds as well as player credits in their gaming accounts.

On August 14, 2017, PAGCOR published guidelines for the Accreditation of Electronic Gaming System (EGS) Service Provider. PAGCOR issued its first EGS accreditation to PhilWeb on October 30, 2017. On December 1, 2017, the first 16 electronic gaming locations were allowed to operate under PhilWeb's Electronic Gaming System platform.

On February 20, 2018, PAGCOR then allowed the Company to offer its services to an additional 21 PeGS. On March 7, 2018, PAGCOR issued a memorandum accepting and processing applications of new and existing operators to resume the use of the Company's electronic gaming system, thereby allowing the Company to fully resume its operations.

Operator Partnerships

As of December 31, 2017, 16 locations across the country were operating within the PhilWeb Electronic Gaming System platform.

Content and Services

PhilWeb's Electronic Gaming System platform resumed with the Magic Macau suite of casino games. These games include wide-area progressive slots, video poker, and electronic table games such as Blackjack and Baccarat.

Apart from these, PhilWeb also resumed support services being provided to Operators, such as Accounting and Reporting, jackpot fund management, remittance management, technical support, marketing and customer service.

Marketing

At the resumption of its Electronic Gaming service, PhilWeb launched a number of marketing initiatives to build awareness of the return of its platform. Operating sites were provided with support collaterals covering regulatory announcements, branded content and promotional activities. PhilWeb also provided financial and logistical support for relaunch activities under the new platform.

PhilWeb also conducted customer experience enhancement activities such as the daily "Power Hour" draw and the weekly "Platinum Customer" draw which rewarded customers for playing and staying loyal to the PhilWeb gaming platform.

1.2 BigGame, Inc.

From 10 operating locations at the start of 2017, BigGame ended 2017 with 25 operating locations across the country. This was achieved partly through the acquisition of 10 electronic gaming sites in different parts of the country, as well as the resumption of gaming services for existing BGI locations that had closed when PhilWeb's IPLMA expired. Following the approval of PhilWeb's accreditation as Electronic Gaming System Service Provider, an initial 15 BigGame locations were converted back to the PhilWeb platform.

BigGame's network of cafés functions as the Company's "R&D laboratory" where new games, strategies and other innovative ideas are first tested. Results, whether positive or negative, are reported to e-Games operators during the quarterly General Assemblies. If a new game or idea delivers positive results and is approved unanimously by the operators, the BigGame café in question becomes the standard by which all other BigGame and e-Games cafés will follow. Because of this rigorous process, BigGame continues to bring in improved gaming configurations and upgrades for the Company's various services and amenities.

Apart from electronic gaming, BigGame also acquired 2 electronic bingo locations in the National Capital Region. This provides BigGame and PhilWeb with valuable insights into another segment of the gaming industry.

Best Gaming Experience

BigGame continues to provide the Best Gaming Experience to its customers. Continuous daily food service has become a mainstay at the BigGame locations since its introduction in 2016.

BigGame will continue its site expansion, renovation and refurbishment activities in 2018. The year ahead will also see more innovations and improvements in player experience. Player acquisition efforts will also be a focus through activation activities in various entertainment establishments. BigGame remains committed to increasing customer service levels, as well as adding site amenities and creating an ambiance that extends the best gaming experience for our target market.

1.3 Corporate Services

Finance

The PhilWeb Finance Department continued to provide its unwavering support to the growth of the business in 2015 through the sound implementation of financial systems, processes and internal control policies that safeguard the Company assets and resources.

During the first quarter of 2016, Finance developed the reporting process and reconciliations of progressive jackpot contributions and actual payouts for slot machine games. This paved the way for PAGCOR to approve the introduction of new games with large progressive payouts, such as Happy Golden Ox, Three Stooges and Rudolf's Revenge. The introduction and implementation of new games was successful not only in creating excitement for our players, but also in delivering additional revenue to all our stakeholders. In October, the highest single jackpot payout was 2.7 million pesos.

Another milestone for the year was the implementation of our closed-loop e-wallet which we branded "e-SAFE". The keys to the implementation of e-SAFE were the internal controls and security measures that we established to ensure that the client's money is safe and secure. Coupled with the introduction of new gaming platforms such as MSW, the e-SAFE will now allow players to place bets to these games using the wallet balance. This will also allow players to receive payouts through their wallets, which they can keep or withdraw any time they want.

Finance continues to ensure that all cash from the nationwide network of e-Games are collected on a timely and accurate manner. Through our company-proprietary POS system and 24/7 operation of our Cash Centers, we are able to monitor cash exposure and thereby enabling us to collect or replenish the cash needs of each site almost immediately. Our arrangements with banks, also allow us to replenish the operator and pay the player of the provincial sites on a real-time basis. The strict implementation of collection policies enables us to manage our cash with very minimal risk to the Company and to the operator.

Finance continuously provides financial reports, reconciliations in a timely manner to management and stakeholders to support key business decisions.

Legal

The Legal Department ensures that the interests of the Company as well as its subsidiaries and affiliates are fully protected. Likewise, it makes certain that the Company observes all laws, rules and regulations relevant to the operation of its business and that it complies with all the reportorial requirements of various government offices and agencies such as, but not limited to, the Securities and Exchange Commission, the Philippine Stock Exchange, the Board of Investments and the Philippine Economic Zone Authority. In the same manner, the Legal Department manages and oversees the Company's dealings with concerned local government units with respect to the issuances of permits and licenses.

The Legal Department is also responsible for the registration of trademarks, patents and copyrights that are aimed to protect the intellectual property rights of the Company. Moreover,

it is in-charge of reviewing all the contracts that the Company enters into thereby guaranteeing that the terms of every agreement are beneficial to the interests of the Company. Further, the Legal Department handles all cases brought by or against the Company whether these cases involve civil, criminal or administrative matters. In all, the Legal Department serves as the legal adviser and consultant of the Company, ever vigilant and protective of the Company's rights and interests.

Customer Support

In our continued drive to provide fast and reliable support to all e-Games members, operators and site staff, as well as customers of MegaSportsWorld 365 days a year, 24 hours a day, several changes were introduced in the Customer Support department in 2015. New channels were opened from the traditional hotline and email, to include SMS and chat support through the Viber app. A new Customer Relationship Management system was likewise implemented giving the team and other key customer facing groups a real time, single source of client engagements and interactions. With such improvements in place, over 250,000 transactions were handled last year across all PhilWeb products and the different channels. Customer Support has maintained a 92% average answer rate for all inbound calls and written customer correspondences (email, SMS and chat) were responded to within 30 minutes. On top of all inbound transactions from various stakeholders, the group has carried out continuous outbound support for other departments: Marketing - for promo related activities; Information Technology - for maintenance advisories; and Finance - for cash collection and replenishment.

In 2016, the group aims to enrich and further improve customer experience by providing more options for individuals to communicate and interact with us, streamline processes to shorten resolution times, and targeted staff training to reinforce the culture of service in every member of the Customer Support team.

1.4 Information Technology

PhilWeb's Information Technology group is composed of four functional departments, namely: Infrastructure, Software Development, Service Delivery and Service Support. Each department's functions are aligned with PhilWeb's operational requirements as well as its corporate needs.

The Infrastructure Department's primary role is to provide all the components - hardware, software, network resources, facilities and services - needed to deliver IT services for PhilWeb's casino and corporate operations. The team is also responsible for the monitoring and maintenance of these components to ensure that operations are supported 24/7.

The Software Development Department is in charge of creating and implementing software vital to PhilWeb's casino operations. As of this writing, a number of home grown applications are in production which will allow PhilWeb to provide a better gaming experience to its customers through the management of their membership credentials, e-wallet and loyalty points. Internally, the group has also developed tools to provide the operational teams such as

Customer Support, Finance Operations, and Casino Operations with the information they need for their day-to-day activities.

The Service Delivery Department is responsible for the implementation and management of quality IT services. Guided by industry best practices, the group manages delivery of services through the disciplines of Project Management and Service Management. In line to its vision to ensure quality, the team also has a Quality Assurance unit which conducts testing on home grown software prior to customer endorsement in order to ensure that business requirements are met.

The Service Support Department is charged with providing first level technical support and ensuring that IT services are available 24/7 to both internal and external customers of the Company. There are two groups under this department: a) the Technical Support team, which monitors and performs first level troubleshooting on services pertaining to PhilWeb's corporate & casino infrastructure and B) Field Support, which is tasked to provide first level troubleshooting for e-Games sites. Tickets reported by site personnel and operators are first escalated to this team for validation and resolution.

Highlights

Account-based play was further enhanced this year through the introduction of the e-wallet feature. Players can leave balances on their accounts and play in any e-Games site without having to carry their cash around. IT has provided improvements in the home grown systems to ensure full and seamless integration with these new features. In line with this update, IT has also deployed the new version of the casino game client to all e-games venues across the country.

Information Security

In June 2015, PhilWeb transformed the Security and Compliance Group into the Information Security Group. The Group provides guidance on securing and protecting the privacy of information, and ensures that the institution maintains appropriate operational controls, standards, processes and Information security policies. The Information Security Group reports directly to the Office of the President.

After the establishment of the Information Security Group, IT network security was transferred from The Information Technology Group to Information Security in order to provide a better alignment and direction with regards to PhilWeb Security. The IT Network Security team focuses on PhilWeb's perimeter security, on the design and implementation of security appliances, and on ensuring a secured gaming environment.

Information Security Engineering was also established to provide application security, endpoint security and access control management for PhilWeb Corporation.

The Information Security Group is composed of two teams, namely the Information Security Engineering Team and IT Network Security.

Goals and Objectives

PhilWeb Corporate, Employee, Customer, and Trading Partner information and the applications, systems, and networks that support this information, are protected from unauthorized access, modification, disclosure, and usage. This is achieved through a combination of services, solutions, awareness training, and processes that enable the business to grow and thrive, while risks and exposures are managed.

Information Security plays a vital role in:

- Securing PhilWeb's Information to avoid potential data loss
- Providing immediate resolution, recommendation and mitigation of any Information Security incidents.
- Implementing Information Security policies, best practices and standards in alignment with the ISO 27001 & ISO27002 framework.
- Identifying and managing IT-related risks and increased requirements for control over information.

Highlights

Network security was reinforced in 2015 through the combined efforts of the Information Security Group as well as the InfoSec Engineering Team.

Access Review and recertification process for PhilWeb's critical systems was established to ensure that privilege accounts are reviewed and approved by the system and application owners.

The Group also established Information Security Policies for PhilWeb which are aligned and in accordance with the ISO27001 and ISO27002 version 2013 standards.

Furthermore, the implementation of network security policies for PhilWeb's version 15 casino environment, as well as the establishment of Security Standards for game terminals and POS were completed in 2015.

1.5 Human Resources and Administration

Organization Structure

PhilWeb's Human Resources and Administration Departments were re-structured in January of 2016 and became one division, Human Resources and Administration. Merging the two departments was effective and cost efficient maximizing the combined competencies of the former 2 departments that gave more solid support for the Company.

The Human Resources Department (HR)

Recruitment & Selection

Due to the non-renewal of PhilWeb's IPLMA with PAGCOR in August 2016, Recruitment has been on hold until June 2017. Since then, Recruitment and Selection in PhilWeb continued to follow stringent procedures to ensure that we are hiring only qualified and competent workforce.

New Hires Orientation covering the Company's Vision, Mission and Core Values, Culture and History of PhilWeb, the Organization Chart, Product Training, Policies and Procedures and Code of Conduct as well as explanation on their Employment Contract - comprise the outline of the Induction Program and is given prior to turnover to the requesting department. Technical orientation is handled by the respective department.

In 2017, a total of 10 employees were hired and were assigned to different departments. To continuously achieve economy and efficiency in our operations as well as to prevent losses, 23 people were separated in October 2017. As of December 2017, the Company has 170 employees, all ready for re-start once e-Games resumes operation.

Compensation and Benefits

The HR Department ensured timely delivery of compensation and benefits to the workforce and their professional and personal growth were charted through based Performance Evaluation/Appraisal. Corresponding rewards and compensation are fairly given, including those who have been separated from the company due to the non-renewal of the IPLMA with PAGCOR.

The Year 2017 marked the 17th year of PhilWeb in the business. During the Company's anniversary, employees were recognized for their dedicated service and loyalty rendered to PhilWeb. Twenty (20) employees celebrated their 5th year of service, three (3) employees for their 10th, and one (1) for their 15th year in PhilWeb.

Workplace Learning & Development

2017 was a year for on-the-ground training for all employees. To prepare everyone for the e-Games restart, each employee was assigned to a BigGame site, for several months, to observe, help out, and make a study on how to improve the site operations and grow the business. Executives also took part as mentors.

Employee Engagement

In addition to workplace learning and development interventions as tool for workforce retention and engagement, regular general assemblies and other means of communication are undertaken to get the workforce pulse as regards the company's business developments.

Corporate Social Responsibility (CSR)

PhilWeb reaffirms its commitment and responsibility to its stakeholders through sound and efficient fiscal management of its business from top to departmental level. While this is foremost in our minds, the responsibility to our constituents and community and the environment we work in cannot be undermined.

Despite the non-renewal of PhilWeb's IPLMA with PAGOCR, PhilWeb continues to share our resources and propagates its advocacy to bring computer literacy and education to the less privileged of our society even to the farthest and remote areas. Consistent with the government's endeavor of inclusive growth, the donation does not only end in the delivery of the hardware but comes with related trainings and applications on the use of computers and applications.

In 2017, PhilWeb donated 65 desktop computers to 5 schools and organizations nationwide, namely:

1. Philippine Jesuit Prison Service
2. Bureau of Corrections-Medium Security Compound
3. Ateneo De Zamboanga University
4. Church of the Evangel
5. Xavier School Educational & Trust Fund, Inc.

Logistics and planning were spearheaded by the Administration Department.

The Administration Department

The Administration Department played a big role in 2017 as PhilWeb relocated its business office from Alphaland Southgate Tower to Adamson Centre in Leviste, Makati in June 2017. The Administration Department was responsible from the planning, to the execution until the smooth transfer of employees and equipment. The Department also ensured the smooth reopening of the satellite office in One San Miguel Avenue Building in Pasig.

The Administration Team continued to place great effort in cost-effective measures to support the company's goal to achieve economy and efficiency in its operations without sacrificing the quality of support they render to PhilWeb.

The Administration Team continued to do their share in the timely delivery of their services, ensured that needs of the company were met and repairs and preventive maintenance on the equipment were planned and executed with the least downtime to the Company.

The Human Resources and Administration Division will continue to be a strategic partner of the different business units of PhilWeb and will continue to contribute to innovation for excellence in all our endeavors.
